Shri Anand Prakash  
Director Road Transport & Highways  
Ministry of Road Transport & Highways  
Ground floor, Main Gate, Nr. Reception  
Transport Bhavan, 1 Parliament Street  
New Delhi- 110 001

Dear Shri Anand Prakash:

We have been complaining to MBI for last more than 8/10 months in regard to this extremely vital and a major failures observed by us.

In actual fact large number of vehicles are suffering from similar failure not only in India but worldwide. Unfortunately, however, MBI and Daimler AG do not choose to acknowledge this fact and to the best of our knowledge carry out repairs and modifications in individual cases while covering up the original basic malfunction which is of a highly dangerous life threatening nature.

This components or software failure cannot be really tolerated as it would to lead to loss of life and severe damage to vehicles.

Our letters of complaints and request for rectification and even legal notices served to MBI have remained unacknowledged and unanswered and as a matter of fact we are forced to keep our own vehicle worth crore of ruppes out of use and suffer tremendous hardship and mental torture .

We feel that a company of this stature is evading responsibility for a virtual criminal neglect of life threatening problems and that is a reason why we wish that you would intervene in this issue.

We therefore urge upon you to institute a suitable inquiry with the manufacturer and assist us in bringing this issue to conclusion as also hold MBI responsible for the neglect of such failure.

Thanking you,

For Cama Motors Pvt. Ltd.,

Rustom J Cama  
Executive Director

For Cama Hotels Ltd.,
