Service Measure – Check for cover for air inlet slot and replace if necessary Model W 220 and W 215

Dear All,

We are in receipt of a subject service measure from DCAG. The details of the vehicles in your responsibility is attached herewith. The vehicles where the concerned dealer could not be identified are also included in the list. If such a vehicle reports to your dealership, then please carryout this action otherwise provide us a written confirmation that the vehicle does not report to your workshop.

As per the details received from DCAG, on the above mentioned vehicles a cover under air inlet slot of the hood may not have been installed. Please check whether this cover has been installed on the vehicle's next visit to workshop. If this is not the case, please retrofit a cover, as per the work instruction attached herewith.

Work description for service measure at next workshop stay

Check cover under air inlet slits and exchange if necessary
Model W 215/220 RHD

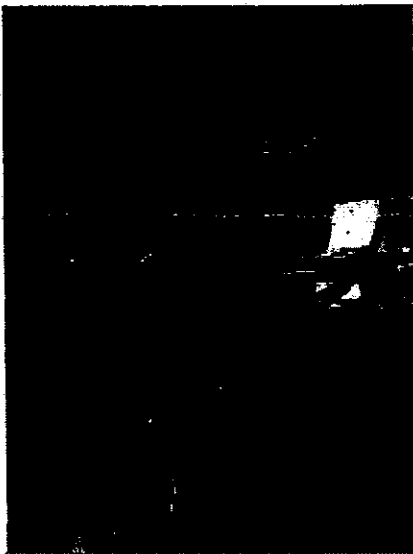

Procedure

1. Check to see if the correct cover has been installed (see FIGURE 1 for incorrect cover).
2. Open engine hood as described in AR88.40-P-1000M (vertical position).
3. Check to see if the correct cover has been installed in the engine hood (closed cover must be on top of the brake fluid reservoir) (see FIGURE 1). If the open side of the cover is present on top of the brake fluid reservoir, the cover must be exchanged.
4. Remove/install the cover as described under item 5 in AR 88.40-P-3000M.

Sub. : Service Measure.

Dear Sir,

In connection with the above subject and your service measure dated 22nd October 2003, we will like to inform you that we have thoroughly checked all the 33 chassis numbers provided by you. Out of all the 33 chassis numbers only one vehicle bearing **Chassis Number : WDB2201652A084831** belongs to our territory.

In the same respect, the service measure will be completed on the said vehicle, next time when the vehicle visits our workshop.

With best regards
