**i** In the event of shift quality complaints on the above listed models, it is currently forbidden to replace the electrohydraulic actuator (EHS).

After replacing and commissioning the EHS, customer complaints can occur with the cruise control (CC), DISTRONIC (adaptive cruise control) and hold function.

Work is currently being carried out on a remedy for complaints relevant to the function (hardware faults on rpm sensor, control unit or EHS).

A solution is provisionally available via the Xentry Diagnostics Version 03/2010.  
 Please contact the customers as soon as this is available.
