

8 November 2011

To,
Shri S Sundareshan
The Secretary
Ministry of Heavy Industries and Public Enterprises
Government of India ,
155, Udyog Bhavan ,
New Delhi – 110011

Dear Sir,

We wish to once again bring to your kind attention the major issue pertaining to faulty and highly dangerous vehicles manufactured by Mercedes Benz India Private Ltd... , Daimler AG.

By the earlier correspondences vide several letters addressed to Mr. S.R. Marathe (Director), ARAI we had placed the matter but no further response has been received by us. Even from Mercedes Benz India Private Ltd... we have received no technical clarification or suitable reply for over two years and therefore we approached the Ambassador for Germany in India vide several letters to which also we have received no reply. Before this date we failed to receive a reply from the German Trade Commissioner also.

This would very clearly point to the fact that there is a conspiracy of silence, intentionally propagated by the manufacturer and it is being covered up with the assistance of the Trade Commissioner for Germany and the Ambassador for Germany in India.

This entire issue deserves a very serious Government of India level investigation as it covers criminal intent and endangerment of human life. With this point of view we are enclosing herewith a copy of our latest letter addressed to the Ambassador of Germany in India and supporting documents including letters and circulars from Mercedes Benz India Private Ltd... which point directly **to this criminal conspiracy to defraud the Indian public** and which if properly investigated would definitely lead your Ministry to enforce the strictest criminal actions against this defaulting company **and would perhaps result in punishment not excluding imprisonment against their Directors and Managers.**

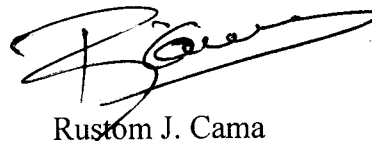

Our only request would be that the enclosures sent herewith may please be investigated thoroughly by your department and necessary information and replies asked from

Mercedes Benz India Private Ltd...and if clear explanation or replies are not received, we would like to know the line of actions proposed by your Ministry.

May we request an acknowledgement to this communication.

With respect,

Yours faithfully,
For Cama Motors Pvt. Ltd.,

Jehangir R J Cama
Chairman
Rustom J. Cama
Executive Director
